**Scholarships**  
**Available**

**Homework Help:** Our qualified math and reading tutors provide personalized, one-on-one support to help students succeed in their homework and build a strong foundation in these essential subjects.

**Sports & Recreation:** Get moving and grooving with our exciting sports and recreation activities! Students can choose from a variety of sports such as soccer, basketball, pickleball, skating, and more. Our programs are designed to promote physical fitness, teamwork, and a love for an active lifestyle.

**Arts Enrichment:** Our diverse arts programs offer students the opportunity to explore their creativity through fine and performing arts. With guidance from professional teaching artists who are masters of their crafts, students will ignite their creativity and passion, culminating in presentations that showcase their talents.

**STEM Adventures:** Dive into the world of science, technology, engineering, and math with hands-on activities and experiments. Students become junior scientists, engineers, and mathematicians as they explore and discover the wonders of the universe through engaging and interactive experiences.

## **Active Learning's TK and Kinder Program**

Get ready to blast off into a world of creativity and adventure! Active Learning's TK and Kinder Program provides students an opportunity to dive into exciting activities that spark their imagination and creativity.

**Our one-hour sessions are filled with joy, laughter, and learning.**

Students soar through the fields as they test out their individually created rockets, act out wild animals, and play out their favorite Disney characters through imaginative play. They sing their favorite tunes on the radio, play instruments, and become science explorers.

Our program also focuses on building friendships, exploring kindness, being a part of the community, and performing for families. Students can play soccer, pickleball, dance, sing, and most importantly, have fun.

It's the perfect place for young minds to explore new interests and make new friends while they wait for their older siblings. Come join us—it's **where every kid can be a SUPERSTAR!**

**Kindness  
Matters**
